Nursery Price and Variety List of

Loveland Nurseries and Orchards

Kroh Bros.

Office and Salesground One Mile North of
Loveland, Colorado, on Paved
Highway No. 285

In this condensed list our purpose is to set forth the varieties of stock that have proven their worth in our trade territory. Instead of issuing an illustrated catalog at this time we have turned this saving over to you by reducing many items much below our big reductions made a year ago.

Our Colorado grown stock cannot be beaten for hardiness. Nursery stock which has been developed under our climatic conditions is naturally stronger and is prepared to show the best results for the buyer who grows it. Fine quality at a competitive price is the best bargain.

We carefully select the most fit specimens in both nursery row and orchard for parent stock.

All stock is guaranteed to reach you in good live condition and to be true to name. Any just claims will receive our strict attention.

Prices will read cash on delivery or with order; C.O.D. orders must be accompanied by one-fourth cash.

We do not prepay freight or express unless otherwise agreed. Perennials, vines and bulbs will be postpaid.

Spring shipping season extends from April 1 to May 10.

RATES: Quantities of 1 to 5 at price each; 5 to 25 at rate per 10; 25 to 250 at rate per 100; 250 up at 1,000 rate.

We shall be glad to help you make selections or give detailed description of any of the items listed below.

Visitors Always Welcome

"X" indicates either grown here or acclimated at least one year

FRUIT TREES AND PLANTS

APPLES

Size	ea.	10	100

- X Poplar (Lombardy)—Tall spire-like grower. 6 to 8 ft., ea. 50c.

- X Poplar (Simoni) — Shape similar to Lombardy; smaller leaves. 6 to 8 ft., ea. 50c.
- X Russian Olive—Very hardy; fine for hedge, screen or specimen planting; has silvery foliage and stems. 6 to 8 ft., ea. 75c; 4 to 5 ft., ea. 40c.
- X Willow (Laurel)—Has attractive dark laurel-like leaves. 6 ft., ea. 50c; 3 to 4 ft., ea. 30c.
- Willow (Niobe Weeping)—Golden barked variety with long graceful branches. 6 ft., ea. \$1.00.

ORNAMENTAL SHRUBS

- X Almond (Pink Flowering)—Showy pink flower clusters before leaves appear. 18 to 24 in., ea. 50c.
- X Barberry (Japanese) — Hardy shrub for low hedges, foundation, or groups; rich green foliage turning to red in autumn; red berries. 12 to 15 in., ea. 15c; per 100, \$8.50; 3 yr. clumps, ea. 30c.
- X Barberry (Red Leaved)—Newer form of above, having blood red leaves all summer in sunny location; red berries. 12 to 18 in., ea. 35c.
- Butterfly Bush (Magnifica)—Grows from ground each season producing long clusters of lavender flowers from July on. Strong No. 1 plants, ea. 35c.
- X Caragana—Large shrub for specimens, screens or hedges; very hardy; has small yellow pea shape flowers in spring. 4 to 5 ft., ea. 50c.
- X Cotoneaster (Acutifolia)—Graceful, very hardy shrub with colored foliage and black berries in autumn. 2 to 3 ft., ea. 40c.
- X Dogwood (Alba Sibirica)—Shrub with very bright red stems; valuable for winter landscape. 18 to 24 in., ea. 35c.
- X Dogwood (Gold Twig)—Winter bark is golden yellow; often used with red-stemmed variety. 2 to 3 ft., ea. 50c.
- X Honeysuckle (Pink)—Hardy, vigorous grower; pink flowers followed by red berries. 3 to 4 ft., ea. 50c; 18 to 24 in., ea. 20c.
- X Honeysuckle (Red)—Red flowering type of above shrub. 2 to 3 ft., ea. 35c.
- Hydrangea (P. G.)—Large lilac shaped bloom clusters, white turning to pink; August. 2 and 3 yr. plants, ea. 35c.
- X Lilac (Common Purple)—2 to 3 ft., ea. 35c.
- X Lilac (Common White)—2 to 3 ft., ea. 50c.
- Lilac (Persian)—Later blooming, lower growing type; light lilac flowers. 2 to 3 ft., ea. 40c.
- X Lilac (Japonica) — Has very long white bloom clusters in June; tall grower. 3 to 4 ft., ea. 75c.
- X Mock Orange (Coronarius)—White flowers, fragrant and profuse. 2 to 3 ft., ea. 40c.
- X Mock Orange (Virginal)—Semi-double, intermittent flowers all summer. 2 to 3 ft., ea. 50c.
- X Prunus (Cistena)—Very hardy shrub with rich purple red foliage; effective singly or in groups.

3 to 4 ft., ea. 75c.

- X **Rosa Rubrifolia**—New hardy shrub rose with striking red foliage all summer; small pink flowers. 2 to 3 ft., ea. 60c.
- X **Snowball (Common)**—Forms many balls of pure white flowers in May-June. 2 to 3 ft., ea. 50c.
- X **Snowberry (White)**—Small pink flowers followed by waxy white berries which remain into winter. 2 to 3 ft., ea. 35c; 18 to 24 in., ea. 25c.
- X **Snowberry (Vulgaris or Coralberry)**—Has dark, close-set foliage and clusters of red berries massed along drooping branches. 2 to 3 ft., ea. 35c; 18 to 24 in., ea. 25c.
- X **Spirea (Anthony Waterer)** — Dwarf; flat red flower clusters over long period. Low clumps, ea. 25c.
- X **Spirea (Frobeli)**—More vigorous than above variety; colorful spring and autumn foliage. 18 to 24 in. clumps, ea. 35c.
- X **Spirea (Thunbergi)**—Fine, feathery dense foliage; profuse white flowers in May. 18 to 24 in., ea. 35c.
- X **Spirea (Van Houtte)** — A most indispensable shrub; a fountain of white flowers in May and June; foliage and form is ornamental the year round. 3 to 4 ft. heavy specimens, ea. 50c; lighter grade, ea. 20c.
- X **Sumac (Fern Leaf)**—Splendid shredded foliage; red fruit clusters; brilliant autumn color. 3 to 4 ft., ea. 50c; 18 to 24 in., ea. 25c.
- X **Tamarix (Africana)**—Feathery green foliage; pink flower panicles in spring. 4 to 5 ft., ea. 50c.
- X **Tamarix (Hispid)** — Bright silvery foliage; bright coral pink flowers over long summer period. 3 to 4 ft., ea. 50c.
- X **Viburnum Opulus (Highbush Cranberry)**—Decorative shrub with white flowers in May followed by showy clusters of scarlet fruits. 2 to 3 ft., ea. 50c.
- X **Willow (Pussy)**—Popular for large gray catkins in early spring. 3 to 4 ft., ea. 40c; 6 to 8 ft., ea. \$1.00.

CLIMBING VINES

Strong No. 1 Grade

- Clematis (Jackmanni)**—Large purple flowers; a beautiful vine, ea. 75c.
- X **Clematis (Coccinea)**—Starts from ground; many bell-shaped red flowers, ea. 50c.
- X **Honeysuckle (Halls)**—Sprays of white and yellow flowers; stays green late in fall, ea. 40c.
- X **Ivy (Boston)**—Climbs brick, stone or concrete walls, ea. 50c.
- X **Ivy (Englemanni)**—Neat hardy self-climber with very brilliant autumn colors. ea. 35c.
- X **Silver Lace Vine**—Covered with clouds of fragrant white flowers from July till fall; strong rapid grower. ea. 75c.

ROSES

Strong Dormant Field Grown Bushes

Everblooming Tea and Hybrid-Tea—

New Outstanding Varieties
